notice from the living man of the flesh and blood

JAMES NISSEN, the private agent has also provided this trustee corporate court the instruments necessary to settle any and all debts against MICHAEL JAMES NISSEN the deceased incorporated artificial entity et, al, wherefore, the living man of the flesh and blood, who also has diplomatic immunity from federal and state government/corporation prosecution expects and requires this corporate court venue of James O' Browning to do what is just and proper in the righteousness for the benefit of the private agent occupant living man of the flesh and blood in the cestui que trust estate office of MICHAEL JAMES NISSEN.

govern yourselves accordingly to your very own federal corporate court statutes, codes, laws, rules and regulations and government policies which are in conflict with constitutional doctrine and are unenforceable against an illegally detained private civilian non citizen national who governs the estate by way of the Most High (omnipotent) all powerful and the natural laws set forth for all His children.
